SEO AEO GEO LLMO?!

“Okay, but which one do I *actually* need?”

SEO vs AEO, in plain English. No acronym soup.

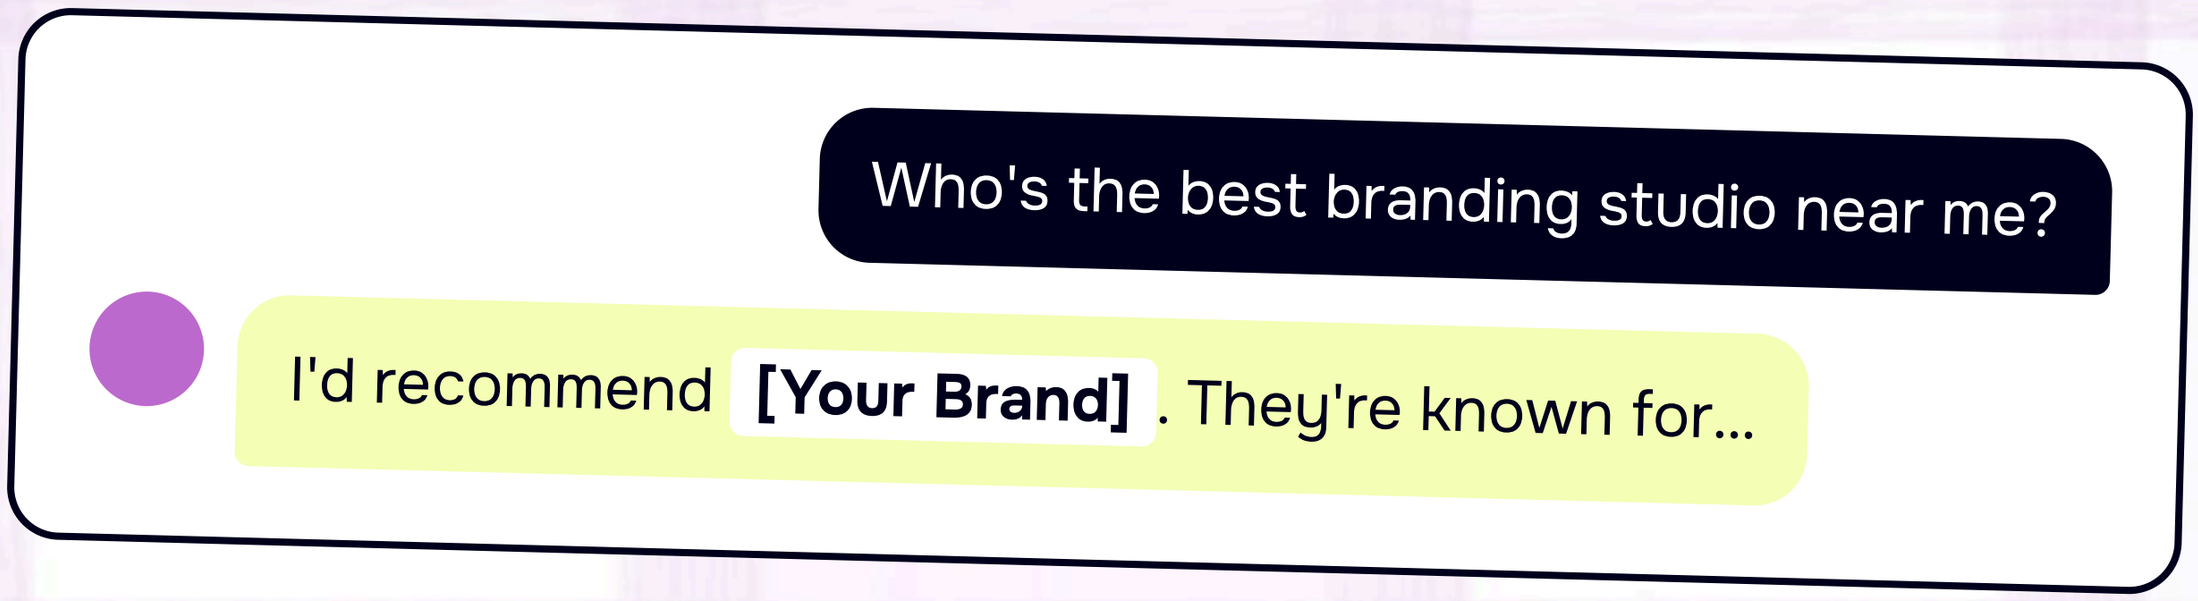

SEO

SEO gets you *found.*

Google ranks pages. You win by being the best result for what people search.

AEO

AEO gets you *named.*

AI tools answer with names. You win by being the brand they trust enough to recommend.

Good news: they share *the same roots.*

- **Clear positioning:** say what you do and for whom
- **Real answers:** content built on real questions
- **Credibility:** being talked about elsewhere

Fix the roots once. *Win in both.*
